Markus Egloff Board Member (since April 2012)

Executive Board

Joachim Bodschwinna Managing Director

Valērijs Hudorožkovs Deputy Managing Director

Report of the Board of Directors

The last fiscal year was again characterised by difficult economic challenges for the banking sector, with the sovereign debt crisis leading to an economic split in Europe in 2012. Painful recessions threaten the entire south; however, thanks to major efforts, national bankruptcy in Greece was averted, but the ramifications for European monetary union are difficult to predict. Domestically, pressure on margins caused by increasing competition and higher costs, due partly to increased regulation, led to a negative impact on the balance sheet.

European central banks supplied the market with almost unlimited liquidity to mitigate the impact of the sovereign debt crisis. In Switzerland, negative interest rates for short-term deposits were considered and the European Central Bank (ECB) lowered its benchmark interest rate to 0.75% (1.0% in the previous year). The Swiss National Bank's (SNB) target range remained unchanged at 0%-0.25%. The ECB declared its willingness to buy up bonds of member countries to an unlimited extent, and this measure led to a reduction in risk premiums for EU member states with low credit ratings.

European stock markets ended 2012 significantly higher. Due to historically low interest rates in the bond market, investor liquidity found its way into the stock market, leading to positive market sentiment. The Swiss Market Index closed at 6,822.44 (+14.93%), the DAX rose to 7,612.39 (+29.06%) and the Dow Jones registered a positive development for the fourth consecutive year, ending 2012 at 13,104.14 (+7.26%). The Baltic stock markets made up for their 2011 losses and also closed higher (Latvia +6.67%, Estonia +38.22% and Lithuania +18.84%).

During the second year after the implementation of the 1.20 CHF/EUR minimum exchange rate by the SNB, the exchange rate of the Swiss franc remained virtually unchanged against both the US dollar and the euro compared with the closing of the previous year. At year-end 2012, the Swiss franc closed at 0.9126 against the US dollar (2011: 0.9418) and at 1.2089 against the euro (2011: 1.2165).

Private banking is at the heart of the business activities of our bank. In addition to account management and related services, this includes stock market transactions in Eastern European equities and bonds, foreign exchange transactions and asset management with the focus on the Baltic region and neighbouring states.

In spite of the challenging market situation, our bank succeeded in expanding the basis for our business activities during the reporting period. Compared with the previous year, the number of clients rose by 16.8% and the volume of clients' deposits entrusted to us increased by 31.8%. Of personnel expenditures of CHF 2,357,838, a total of CHF 2,001,541 went to 25 employees with fixed salaries and CHF 356,297 to provisions for bonus payments for 19 employees.

The outlook for the next fiscal year presents a similar picture to 2012. Low interest rates, margin pressure, increasing regulatory requirements and difficult economic prospects will provide a challenging environment for banks in 2013.

The Board of Directors expresses its gratitude and appreciation to management and employees of the bank for their services rendered.

The Board of Directors,

Report on the financial statements

As statutory auditor, we have audited the accompanying financial statements of AP Anlage & Privatbank AG, which comprise the balance sheet, income statement and notes for the year ended December 31, 2012.

Board of Directors' Responsibility

The Board of Directors is responsible for the preparation of the financial statements in accordance with the requirements of Swiss law and the company's articles of incorporation. This responsibility includes designing, implementing and maintaining an internal control system relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Board of Directors is further responsible for selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Swiss law and Swiss Auditing Standards. Those tandards require that we plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control system relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control system. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements for the year ended December 31, 2012 comply with Swiss law and the company's articles of incorporation.

Report on other legal requirements

We confirm that we meet the legal requirements on licensing according to the Auditor Oversight Act (AOA) and independence (article 728 CO) and that there are no circumstances incompatible with our independence.

In accordance with article 728a paragraph 1 item 3 CO and Swiss Auditing Standard 890, we confirm that an internal control system exists, which has been designed for the preparation of financial statements according to the instructions of the Board of Directors.

We further confirm that the proposed appropriation of available earnings complies with Swiss law and the company's articles of incorporation. We recommend that the financial statements submitted to you be approved.

AP Anlage & Privatbank AG

Notes for the financial years ended December 31, 2012 and 2011

1. Notes on business activities and personnel

General

AP Anlage & Privatbank AG is a 100% subsidiary of Citadele Bank, Riga, Latvia. Its business activities focus on private banking, concentrating on private and corporate clients based in the Baltic states and Switzerland. In September 2011, the bank moved its domicile from Freienbach to Zurich.

Business activities

The bank is engaged in private banking activities and generates profits from the investment of funds. In addition to account management and related services for private and corporate clients, the bank offers securities trading on behalf of clients and asset management services.

Employees

As of the end of the reporting year, the bank employed a staff of 21 (19 in the previous year).

Risk assessment according to Article 663b item 12

The Board of Directors undertakes an annual risk assessment. Additional information on risk management can be found under 2.4.

2. Accounting and valuation principles

2.1 Accounting and valuation principles

General principles

Accounting and valuation principles follow Switzerland's Code of Obligations, its Banking Act and the related ordinance, as well the Guidelines of the Swiss Financial Market Supervisory Authority (FINMA) governing financial statement reporting.

Foreign currencies

Receivables and liabilities in foreign currencies are valued according to average exchange rates on the reporting date. The following exchange rates were used:

2012		2011	
LICD	0.0136	LICD	0.0410
USD	0.9126	USD	0.9418
EUR	1.2089	EUR	1.2165

GBP	1.4715	GBP	1.4521
CAD	0.9176	CAD	0.9221
SEK	14.0219	SEK	13.6008
LTL	35.0100	LTL	35.2300
UAH	11.3100	UAH	11.7200
RUR	3.0100	RUR	2.9300
AUD	0.9479	AUD	0.9561

AP Anlage & Privatbank AG

Notes for the financial years ended December 31, 2012 and 2011

Securities and precious metals trading portfolios

Short-term securities held at the bank's own risk are reported at market value on the reporting date.

Financial investments

Financial investments are valued according to the accrual method.

Fixed assets

According to group guidelines, Other fixed assets are depreciated over five years with the exception of IT equipment, which is depreciated over three years.

Deferrals

Interest expense and interest income, personnel and operating expenses are deferred. Commission income from securities business is booked at the time the transaction is entered in the income statement.

Value adjustments and provisions

Value adjustments are made and provisions set aside for all identifiable risks on the basis of the prudence principle.

Taxes

Owed and net income attributable to income tax are provided for under deferred income; excess pre-paid taxes are booked as pre-paid expenses.

Derivative financial instruments

Derivatives are stated at fair (market) value.

Pension plan liabilities

The bank uses a follow-on contract with the collective fund of an insurance company, based on a defined contribution plan. Employer contributions amounted to CHF 93,948 (2011: CHF 74,653) and are reported under personnel expenses. As of 31 December 2012, no liabilities to the collective fund existed. All risks are reinsured with insurance companies. The bank has no employer contribution reserve. There are no liabilities due to the termination of employment contracts or future reductions in contributions from available funds.

AP Anlage & Privatbank AG

Notes for the financial years ended December 31, 2012 and 2011

2.2. Management of endangered interest

The management of endangered interest is implemented according to the guidelines on accounting standards.

2.3 Treatment of refinancing of trading activity positions

Refinancing expenses for trading activities are charged to interest expense.

2.4 Notes on risk management

The bank is mainly active in the commission business and, as a rule, does not incur significant credit or market risks. The limits for credit and market risks are monitored constantly.

Operational risks are governed by internal regulations and directives on internal organisation. In order to limit legal risks, the bank brings in external lawyers. The bank's governing body carries out an annual risk assessment and is regularly informed, through a management information system, about asset, financial, liquidity and earnings positions, and associated risks.

2.5 Business policy for the use of derivative instruments

Transactions involving the use of derivative financial instruments are carried out for the account of clients and for hedging.

2.6 Reporting of transactions

All transactions are recorded on the transaction date and assessed according to the principles laid out above. All completed transactions are included in the income statement. Fixed term balance sheet transactions and forward contracts are recognised at their value date. Securities transactions are reported on the balance sheet as of the settlement date.

Notes for the financial years ended December 31, 2012 and 2011
