AS Citadele banka

INTERIM REPORT

For the nine months ended
30 September 2024

Key figures and events of the Group

Citadele's operating income in the first nine months of 2024 reached EUR 174.7 million, remaining similar period-over-period. Return on equity stood at 18.9%, while the cost-to-income ratio (CIR) was 46.6%. In Q3 2024, operating income was EUR 58.7 million, reflecting a 1% increase quarter-over-quarter.

In the first nine months of 2024, the loan portfolio increased by 9%, reaching EUR 3,133 million as of 30 September 2024. EUR 944 million was issued in new financing to support Baltic private, SME, and corporate customers during this period, with EUR 320 million issued in Q3 2024.

The overall credit quality of the loan book remained strong. The Stage 3 loans to public gross ratio reached an all-time low of 2.0% as of 30 September 2024, down from 2.1% as of 31 December 2023.

Citadele's deposit base totalled EUR 3,928 million as of 30 September 2024, reflecting a 3% increase since the end of 2023.

Citadele's active customers increased by 2% quarter-over-quarter, reaching 393 thousand as of 30 September 2024. The number of active mobile app users reached 264 thousand, growing by 5% year-over-year. Active digital channel users accounted for 90.3% of total customers.

Citadele continues to operate with more than adequate capital and liquidity ratios. The Group's CAR was 23.0%, CET1 was 20.1%, and the LCR was 192% as of 30 September 2024.

As of 30 September 2024, Citadele had 1,360 full-time employees.

Despite some economic and geopolitical uncertainty, the bank continues to evaluate various strategic options, including the possibility of an IPO.

CEO and Chair of the Management Board

Economic growth in the Baltics is improving

During 2024, we have navigated through a complex and evolving economic landscape marked by modest global growth and varying regional performances. The euro area faced renewed sluggishness, with growth forecasts softening towards the end of the year. The different economic sentiment in each of the Baltic countries was also reflected in the banking environment. Lithuania, with the strongest economic growth, experienced a relatively sharp increase in total lending, in Latvia lending started to grow moderately after several quarters of stagnation, while Estonia continues to stagnate.

The US Federal Reserve's and the European Central Bank's (ECB) monetary easing measures, including rate cuts, reflected ongoing concerns about economic growth and inflation stabilization. These actions, along with fluctuating market sentiment, influenced interest rates and market liquidity, which had a direct impact on financial markets and banking sector activities.

In the Baltics, economic recovery remained slower than anticipated, with mixed performance across the region. Latvia's GDP growth in the second quarter was modest, and manufacturing saw a welcome return to growth after months of stagnation. However, export turnover was affected by weaker demand in the eurozone and beyond. Lithuania's economy similarly showed positive but tempered growth, while Estonia continued to experience contraction in key sectors.

On a more positive note, unemployment across the Baltics remained low, and wage growth, while slowing, continued to rise at a steady pace. This stability in employment and income levels bodes well for consumer spending and financial sector stability in the near future.

Strong financial result

In the first nine months of 2024, Citadele generated an operating income of EUR 174.7 million, remaining similar compared to the same period last year, with a return on equity of 18.9%. In Q3 2024, operating income was EUR 58.7 million, with a return on equity of 18.3%.

.

As of 30 September 2024, Citadele's total loan book stood at EUR 3,133 million, reflecting a 9% (EUR 271 million) increase compared to 31 December 2023.

Citadele continued to support the business community with financing for growth and expansion. In the first nine months of 2024, new financing for private, SME, and corporate customers reached EUR 944 million, representing a 52% increase compared to the same period last year, driven by improving macroeconomic conditions and interest rate expectations. In Q3 2024 alone, new financing amounted to EUR 319.8 million.

The financial standing of our customers is stable, and the quality of our portfolio remains strong. The non-performing loan (NPL) ratio was 2.0% as of 30 September 2024, compared to 2.1% at year-end 2023.

Citadele's deposit base totalled EUR 3,928 million as of 30 September 2024, reflecting a 3% increase as compared to year-end 2023. Loan-to-deposit ratio stood at 80% as of 30 September 2024.

Citadele continues to operate with more than adequate capital and liquidity ratios: CAR was 23.0%, Tier 1 ratio was 20.1% and LCR was 192% as of 30 September 2024.

Despite ongoing economic and geopolitical uncertainty, the bank continues to explore various strategic options, including the potential for an IPO.

Stable client base

Citadele continues to attract new clients, and we are proud of our strong customer base who trust us with their financial service needs. The active customer base reached 393 thousand, representing an increase of 5% year-over-year. Active digital channel users reached 90.3% of total customers, with the majority preferring the mobile app, while the rest use i-Bank. The number of active mobile app users as of 30 September 2024 reached 264 thousand, marking an 5% year-over-year growth.

Innovations and development

Citadele continue to enlarge Mobile app functionality, bringing more products and enhancing user experience. New Authenticated Voice Calls feature has been launched in Q3 2024 in the Mobile App allowing iOS and Android users to securely and conveniently reach customer support with instant identification, providing quicker issue resolution and priority service. Accessible through the app's customer support menu or chat icon, this feature simplifies the support process by eliminating the need to dial a number or provide additional identification during calls.

In Q3 2024, Citadele introduced the vibrant new C smart NEON card, available to all ages but primarily designed for youth, offering no monthly fees and special rewards for clients aged 7-21, thereby encouraging financial independence and fostering responsible money habits from an early age.

Klix, Citadele's e-commerce checkout solution, reached 2,600 merchants, with its registered user base surpassing 400 thousand and active users reaching 92 thousand as of 30 September 2024. During 9M 2024, 14.1 million transactions were processed, with a total value of EUR 486.9 million. Klix "Buy Now, Pay Later" issuance reached EUR 29.7 million during 9M 2024, compared to EUR 11 million for the full year 2023. Several top tier retailers went live during Q3 2024 across the Baltics including signed cooperation with ESTO and their merchant network.

Sustainability

Aligned with our dedication to helping customers transition to a low-carbon economy and acknowledging the increasing significance of sustainability initiatives for our clients, Citadele provides a range of products designed to support the move towards a green economy.

As of 30 September 2024, the Green Savings Account, which uses deposited funds to finance projects aimed at reducing carbon emissions, totalled EUR 62 million.

In the first nine months of 2024, new lending to businesses and the private sector to support the transition to a green economy totalled EUR 67 million. Demand for green mortgages – designed to finance homes meeting the highest energy efficiency standards – reached EUR 10 million in Q3 2024. Of the total issued in the first nine months, EUR 23.1 million was issued in green mortgage loans, EUR 23.9 million in green business loans, and EUR 19.7 million in electric vehicle financing.

In Q3 2024, Citadele launched the C Wealth campaign in Latvia to raise awareness about retirement planning options, including the 2nd and 3rd pension pillars and the Lifetime Pension. This initiative aims to educate clients on securing their financial future through these pension solutions.

Citadele successfully completed EUR 35 million Senior Preferred Bonds issuance

Citadele has completed an oversubscribed issuance of EUR 35 million of Senior Unsecured Preferred Bonds under the EUR 100 million First Senior Unsecured Preferred Fixed/Floating Rate Bonds Programme. Demand exceeded EUR 46 million, allowing Citadele to raise the issuance from the minimum EUR 10 million to the maximum EUR 35 million. The net proceeds from the Offer are to be used by Citadele for general corporate purposes, including compliance with the Minimum Requirement for Own Funds and Eligible Liabilities (MREL) applicable to Citadele at the consolidated group level.

Rūta Ežerskiene has been confirmed as the CEO and Chair of the Management Board by the European Central Bank

On 20 May 2024 Rūta Ežerskienė was appointed as the new Chief Executive Officer and Chair of the Management Board of AS Citadele banka, subject to the regulatory confirmation. On 23 August 2024, after the regulatory confirmation, Rūta Ežerskienė commenced as Chief Executive Officer. Up till this time Rūta Ežerskienė was a Member of the Management Board and Chief Retail Commercial Officer.

Events after the reporting period

Citadele nominates Edward Rebane as new Chief Retail Commercial Officer and member of the Management Board

On 16 October 2024, Citadele announced the nomination of Edward Rebane as the new Chief Retail Commercial Officer and member of the Management Board, pending the required regulatory approval. Edward Rebane, has in-depth understanding of the banking sector, focusing on digital and retail banking solutions and customer experience. He has been working in the banking sector for 14 years, starting his career in SEB Bank in Estonia in 2010. Throughout his tenure, he has held key leadership positions, most recently overseeing digital banking and retail sales across the Baltic region. Edward Rebane has pursued advanced studies at five universities, including University of Oxford and the Estonian Business School.

Vladislavs Mironovs steps down from Citadele Management Board

Vladislavs Mironovs, Chief Strategy Officer, has decided to step down from his position of Member of the Management Board of AS Citadele banka effective from 26 December 2024. Citadele remains committed to maintaining stability and continuing its growth trajectory. The leadership team, under the guidance of Rūta Ežerskiene will continue to drive the bank's mission of delivering exceptional financial services and fostering long-term relationships with both private and business customers, communities, society, supporting Baltic economies.

Financial review of the Group

Results and profitability in Q3 2024 and 9M 2024

Strong financial performance with **operating income** for Q3 2024 reaching EUR 58.7 million, as compared to EUR 58.3 million in Q2 2024. Operating income for the first nine-month of 2024 totalled EUR 174.7 million, a 0.3% increase compared to the same period a year ago.

Performance was driven by strong **net interest income**, which reached EUR 49.2 million in Q3 2024 (EUR 48.6 million in Q2 2024). Net interest income for 9M 2024 amounted to EUR 144.8 million, a 4.4% increase compared to 9M 2023, mainly driven favourable interest rate environment and increase in loan book.

The Group's **net fee and commission income** reached EUR 8.2 million in Q3 2024, decreasing by 2% quarter-over-quarter. Net fee and commission income for 9M 2024 was EUR 25.4 million, a 13% decrease compared to 9M 2023, mainly impacted by decrease in income from cards.

Operating expenses in Q3 2024 reached EUR 24.8 million, representing a 14% decrease quarter-over-quarter. Operating expenses for the first nine months of 2024 totalled EUR 81.5 million, an 11% increase compared to the same period a year ago.

Staff costs decreased by 14% to EUR 16.3 million in Q3 2024. 9M 2024 Staff costs were 53.7 million, 9% increase as compared to 9M 2023. The number of full-time employees was 1,360, compared to 1,329 as of year-end 2023, of which 28 (2023: 28) were with discontinued operations.

Other operating expenses were EUR 6.1 million, representing an 18% decrease quarter-over-quarter, mainly driven by 28% decrease in consulting expenses. Depreciation and amortization expenses stood at EUR 2.5 million, representing a 2% increase quarter-over-quarter. Other operating expenses for 9M 2024 totalled EUR 20.6 million, as compared to EUR 17.7 million in 9M 2023, mainly driven by 16% increase in consulting expenses, 58% increase in non-refundable VAT and 28% increase in advertising and marketing expenses.

Citadele's **cost-to-income ratio** in Q3 2024 was 42.3%, compared to 49.6% in Q2 2024. Cost-to-income ratio in 9M 2024 stood at 46.6% compared to 42.2% in 9M 2023.

Net credit losses and impairment were recognized in the amount of EUR 4.5 million in Q3 2024 and EUR 2.5 million reversals in 9M 2024.

Net profit from continuous operations reached EUR 24.1 million in the Q3 2024 with 18.3% return on equity. Net profit in 9M 2024 reached EUR 75.1 million. Kaleido Privatbank AG (Swiss subsidiary committed for sale) has been presented as discontinued operations since 31 December 2022. The Group's net profit was EUR 23.9 million in Q3 2024, as compared to EUR 22.5 million in Q2 2024.

Balance sheet overview

The **Group's assets** stood at EUR 5,005 million as of 30 September 2024, increasing by 3% since year-end 2023 (EUR 4,863 million). Since 31 December 2022, Kaleido Privatbank AG (Swiss subsidiary committed for sale) is presented as discontinued operations. Continuing operations assets were EUR 4,572 million as of 30 September 2024 (compared to EUR 4,731 million as of 31 December 2023).

The **net loan portfolio** was EUR 3,133 million as of 30 September 2024, increasing by 9% from year-end 2023. The overall credit quality of the loan book was good. **Stage 3 loans to public** gross ratio was 2% as of 30 September 2024, compared to 2.1% as of 31 December 2023.

New financing in Q3 2024 totalled EUR 320 million, representing a 13% decrease quarter-over-quarter, mainly impacted by lower new lending volumes in corporate segment and leasing. EUR 139 million was issued to private customers (15% increase quarter-over-quarter), EUR 125 million to SMEs (7% decrease quarter-over-quarter) and EUR 56 million to corporate customers (2 times less quarter-over-quarter), reflecting a typical seasonal slowdown in corporate activity during Q3. In terms of products EUR 53 million was issued in mortgage loans (19% increase q-o-q), EUR 82 million business loans (30% decrease q-o-q), EUR 46 million in consumer and micro loans (31% increase q-o-q), EUR 139 in leasing and factoring (18% decrease q-o-q).

In terms of the **loan portfolio's geographical profile**, as of 30 September 2024, Latvia accounted for 44% of the portfolio, with EUR 1,382 million (45% as of year-end 2023), followed by Lithuania at 37% with EUR 1,157 million (vs. 36% as of year-end 2023), Estonia at 19% with EUR 581 million (vs. 18% as of the year-end 2023) and EU and other countries at 0.4% with EUR 13 million.

As of 30 September 2024, loans to Households represented 46% of the loan portfolio (46% as of year-end 2023). Mortgages have increased compared to year-end 2023 (8% increase) and constituted EUR 844 million. Finance leases increased by 7% and was EUR 367 million (vs. 344 million as of year-end 2023). Consumer lending increased by 21% vs. year-end 2023 and reached EUR 123 million. Card lending has slightly increased by 6% and was EUR 55 million. Overall, the main industry concentrations were Real estate purchase and management (13% of total loans), Transport and communications (6%), Manufacturing (6%) and Trade (7%).

The Group's **securities portfolio** forms a part of its liquidity resources and in Q3 2024 increased by 1% vs. the year-end 2023. 95% of the securities portfolio consist of securities with a rating of A and higher. The largest changes were in AA/Aa rated bonds, which decreased by 34% or EUR 98 million since year end 2023, mainly due to changes in credit rating of the Estonian government.

The Group's LCR and NSFR decreased from 206% and 147% at year-end 2023 to 192% and 143% as of 30 September 2024, respectively.

The main source of Citadele's funding, **customer deposits**, increased by 3% to EUR 3,928 million in Q3 2024 compared to year-end 2023. Term deposits share out of total deposits stood at 29% as of 30 September 2024, as compared to 26% as of end of year 2023. Baltic domestic customer deposits formed 99% of total deposits or EUR 3,870 million (compared to 98% as of year-end 2023).

Segment Highlights

Retail Private and Affluent segment

The number of active retail customers reached a new all-time high for Citadele, and primary customers continued to grow, reaching 207.8 thousand clients as of 30 September 2024, a 2% year-over-year increase. New customer digital onboarding penetration reached 47%, up from 40% a year ago. In 9M 2024, the retail private segment's operating income reached EUR 65.3 million.

New lending to private individuals reached EUR 138.8 million in Q3 2024, a 15% quarter-over-quarter increase. New lending in 9M 2024 totalled EUR 355.9 million, representing a 76% increase compared to the same period a year ago. Notable growth has been observed in the demand for green products. Green mortgage loans reached EUR 23.1 million in 9M 2024, with 43% issued during Q3 2024.

Total loans to private individuals reached EUR 1,350 million as of 30 September 2024, an increase of EUR 95 million since 31 December 2023, with strong loan quality. Deposits from private individuals totalled EUR 1,932 million, up by EUR 20 million compared to 31 December 2023.

SME segment

In the nine months ending 30 September 2024, the SME segment's operating income reached EUR 59.2 million, reflecting a 6% year-over-year increase. New lending totalled EUR 374.3 million in 9M 2024, a 21% increase compared to the same period last year, with EUR 125.2 million issued in Q3 2024. Total loans to SMEs stood at EUR 1,023 million as of 30 September 2024, marking a 14% increase from 31 December 2023, while loan quality remained strong. SME deposits reached EUR 884 million, up 2% compared to 31 December 2023.

Corporate segment

In the nine months ending 30 September 2024, the corporate segment's operating income reached EUR 21.2 million, reflecting a 30% year-over-year decrease. This decline was primarily due to a higher proportion of term deposits within the total deposit base, which resulted in increased interest expenses.

Corporate new financing totalled EUR 55.8 million in Q3 2024, as compared to EUR 110.0 million in Q2 2024. New financing in the first nine months of 2024 reached EUR 213.8 million, an 11% increase compared to 9M 2023. The total corporate loan portfolio was EUR 751 million, representing an 8% increase compared to year-end 2023. Credit portfolio quality remained strong.

The deposit portfolio grew by 10% compared to year-end 2023, reaching EUR 1,016 million as of 30 September 2024.

Asset Management

In the nine months ending 30 September 2024, the Asset Management segment's operating income reached EUR 5.8 million, reflecting an 11% year-over-year increase. Total customer assets under management grew to EUR 1.2 billion, up from EUR 1.1 billion at year-end 2023.

Business Environment

Economic outlook in the euro area is showing signs of sluggishness

Global economic growth is remaining stable but modest. However, we can see that US economy is doing somewhat better than other advanced economies, particularly the major European nations. The euro area economy has not lived up to expectations and, after improving in the first half of the year, some economic indicators are showing signs of sluggishness again. Pessimism returned to euro area business sentiment towards the end of Q3 2024 and, with activity still unable to break out of stagnation, growth forecasts started to turn down again. At the same time, euro area consumer sentiment continued to improve during Q3 and combined with lower inflation, rising purchasing power, lower borrowing costs and strong household saving, could boost consumption growth in the foreseeable future. In contrast, the US economic climate started to improve in early autumn after a relatively weaker performance in the middle of the year. This, together with continued strong household demand, eased concerns that the economy was slowing sharply and encouraged economists to revise up their US GDP forecasts.

In September, the US Federal Reserve joined its European counterparts and kicked off the easing cycle with a faster-than-expected 0.50 percentage point rate cut. The ECB also continued the path started in June and cut the deposit rate by a further 0.25 percentage points in September and October, bringing the total cut to 0.75 percentage points. As inflation approached central banks' 2% target, bankers on both sides of the Atlantic began to pay more attention to the state of the economy in their decision-making processes. In recent months, this provoked a relatively exaggerated reaction by financial market participants to the economic news flow in both regions, but particularly pronounced in the US. market participants currently expect that benchmark interest rates in the US could reach their lowest level close to 3.50% at the turn of 2025 and 2026, while in the euro area the deposit rate could stabilize close to 2% or even slightly below this level in the second half of the next year.

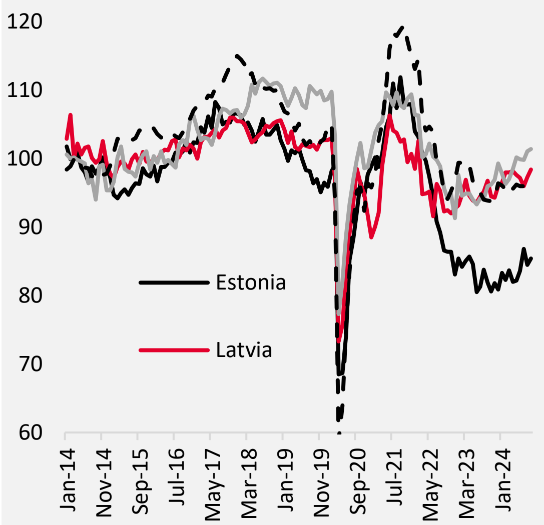
In September 2024 inflation in the euro area fell below the central bank's target and declined to 1.8%, mainly driven by deflation in energy prices. In the second quarter of 2024, GDP in the euro area grew by 0.6% compared to the same period in the previous year. According to the International Monetary Fund's October 2024 forecast, the global economy growth expectations remained unchanged compared to July 2024 forecast - 3.2% in 2024 and were lowered from 3.3% to 3.2% in 2025. In the euro area, GDP growth is projected to increase from 0.8% in 2024 to 1.2% in 2025, that is 0.1 and 0.3 percentage points lower compared to July 2024 forecast.

Economic recovery in the Baltics remains relatively slow

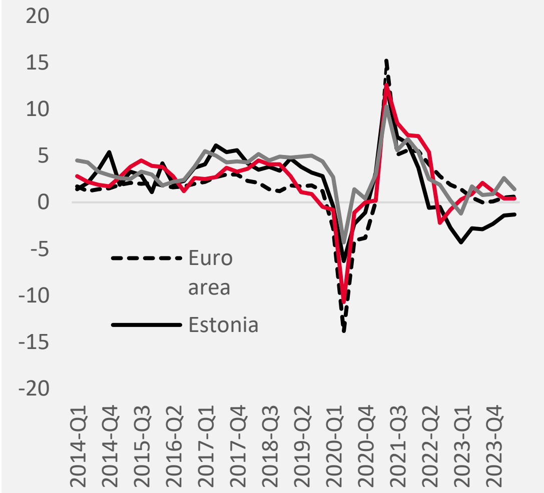
Economic growth in the Baltics is improving, but the recovery remains slow. GDP in Q2 2024 in Latvia grew by 0.5% compared to Q2 2023, however decreased by 0.9% compared to the previous quarter. Lithuania's economy grew by 0.7% quarter-on-quarter in Q2 2024, falling short of preliminary estimates and below 0.9% growth seen in the previous quarter. On an annual basis, Lithuania's GDP increased by 1.8% in the second quarter, slightly below the initial forecast of 1.9% and down from a 3% rise in the prior quarter. In Q2 2024 Estonia's GDP remained unchanged on quarter-to-quarter basis but decreased by 1.3% compared with the same period of 2023.

Inflation in the Baltics remains low - in Latvia slightly increased during Q2 2024 but decreased in Lithuania and Estonia. In

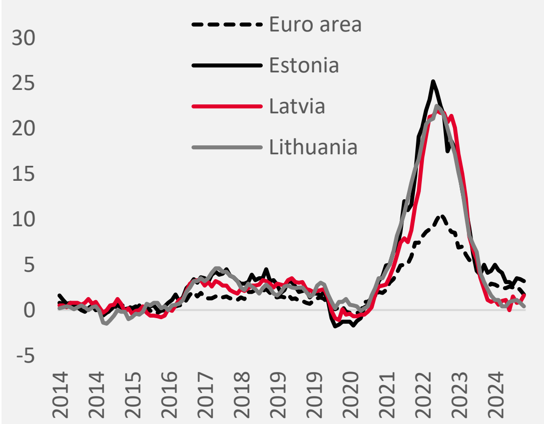
Economic sentiment indicator



GDP (constant prices, % year-on year)



Inflation (%, year-on-year)



September, inflation stood at 1.4% in Latvia, 0.5% in Lithuania, and 3.2% in Estonia. The decline in inflation is largely due to the base effects of lower energy prices while domestic price pressures persist.

Manufacturing in Latvia and Lithuania returns to growth but in Estonia remains in recession. Estonia's industrial production fell 6% year-on-year in August 2024, slipping further from a 5.9% drop in the previous month. Latvia's industrial output increased by 2.1% compared to August 2023, marking a significant turnaround after previous months of stagnation and decline. This was the second consecutive month of growth, with production rising by 1.4% year-on-year in July. Domestic turnover grew by 5.1%, indicating strong local demand, but export turnover fell by 2.7%, impacted by lower demand in the euro area (-4.1%) and outside it (-1.4%). Industrial production in Lithuania rose 2.3% year-on-year in September 2024, slowing from a downwardly revised 3.1% gain in the previous month.

Low unemployment and slowing wage growth pace

Despite weak economic growth, unemployment in the Baltics remains low. The unemployment rate in Estonia fell from 7.6% in Q1 2024 to 7.4% at the end of Q2 2024 but rose to 7.9% in August. In Latvia, the unemployment rate has been fluctuating between 6.9% and 7.0% for the last few months and stood at 7.0% at the end of August 2024. In Lithuania, the unemployment rate, like Estonia, increased slightly and stood at 7.9% at the end of August.

Management Board of the Bank as of 30/09/2024:

Name	Current position	Responsibility
Rūta Ežerskienė	Chair of the Management Board	Chief Executive Officer
Valters Ābele	Member of the Management Board	Chief Financial Officer
Vladislavs Mironovs	Member of the Management Board	Chief Strategy Officer
Slavomir Mizak	Member of the Management Board	Chief Technology and Operations Officer
Vaidas Žagūnis	Member of the Management Board	Chief Corporate Commercial Officer
Jūlija Lebedinska-Ļitvinova	Member of the Management Board	Chief Risk Officer

Vladislavs Mironovs has decided to step down from his position of Member of the Management Board of AS Citadele banka effective from 26 December 2024.

On 7 November 2024 Edward Rebane was nominated as the new Chief Retail Commercial Officer and member of the Management Board, pending regulatory confirmation.

On 20 May 2024 Rūta Ežerskienė was appointed as the new Chief Executive Officer and Chair of the Management Board of AS Citadele banka, subject to the regulatory confirmation. On 23 August 2024, after the regulatory confirmation, Rūta Ežerskienė commenced as Chief Executive Officer. Up till this time Rūta Ežerskienė was a Member of the Management Board and Chief Retail Commercial Officer.

On 4 April 2024 Chief Executive Officer and Chairman of the Management Board of the Bank Johan Åkerblom tendered his resignation to the Supervisory Board. Johan Åkerblom effectively remained in the position of Chief Executive Officer until regulatory approval of the new Chief Executive Officer was received on 22 August 2024.

Effective from 2 January 2024, Uldis Upenieks, previous Member of the Management Board of AS Citadele banka resigned from his duties and left the Management Board of the Bank.

Statement of Management's Responsibility

The Management of AS Citadele banka (hereinafter – the Bank) is responsible for the preparation of the interim condensed financial statements of the Bank and for the preparation of the interim consolidated financial statements of the Bank and its subsidiaries (hereinafter – the Group).

The interim condensed financial statements are prepared in accordance with the source documents and present the financial position of the Bank and the Group as of 30 September 2024 and the results of their operations for the three and nine months periods ended 30 September 2024, changes in shareholders' equity and cash flows for the nine months period ended 30 September 2024 in accordance with IAS 34 Interim Financial Reporting as adopted by the European Union. The management report presents fairly the financial results of the reporting period and future prospects of the Bank and the Group.

The interim condensed financial statements are prepared on a going concern basis in accordance with IAS 34 Interim Financial Reporting as adopted by the European Union. Appropriate accounting policies have been applied on a consistent basis. Prudent and reasonable judgments and estimates have been made by the Management in the preparation of the financial statements.

The Management of AS Citadele banka is responsible for the maintenance of proper accounting records, the safeguarding of the Group's assets and the prevention and detection of fraud and other irregularities in the Group. They are also responsible for operating the Bank in compliance with the Law on Credit Institutions, regulations of the Bank of Latvia and other legislation of the Republic of Latvia and European Union applicable for credit institutions.

Management Board of AS Citadele banka on 22 November 2024 executed a power of attorney appointing Rūta Ežerskienė empowering her to sign this report on its behalf. This document is signed using a qualified electronic signature by Rūta Ežerskienė on 29 November 2024.

Rūta Ežerskienė

Chair of the Management Board

The notes on pages 18 to 64 are an integral part of these interim condensed financial statements.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS

If not mentioned otherwise, referral to the Group's policies and procedures should be also considered as referral to the respective Bank's policies and procedures. Figures in parenthesis represent amounts as of 31 December 2023 or for the nine months period ended 30 September 2023.

NOTE 1. AUTHORISATION OF THE INTERIM CONDENSED FINANCIAL STATEMENTS

These interim condensed financial statements have been authorised for issuance by the Management Board and comprise the financial information of AS Citadele banka (hereinafter – the Bank or Citadele) and its subsidiaries (together – the Group).

NOTE 2. GENERAL INFORMATION

Citadele is a Latvian-based full-service financial group offering a wide range of banking products to retail, SME and corporate customer base as well as wealth management, asset management, life insurance, pension, leasing and factoring products. Alongside traditional banking services, Citadele offers a range of services based on next-generation financial technology, including a modern mobile application, contactless and instant payments, modern client onboarding practices and technologically-enabled best-in-class customer service.

As of period end the Bank operates branches in Latvia, Lithuania and Estonia. AS Citadele banka is the parent company of the Group. The Group's main market is the Baltics (Latvia, Lithuania and Estonia). Citadele was registered as a joint stock company on 30 June 2010. Citadele commenced its operations on 1 August 2010.

As of 30 September 2024, the Group had 1,360 (2023: 1,329) and the Bank had 1,124 (2023: 1,097) full time equivalent active employees. From total Group's full time equivalent active employees 28 (2023: 28) were with discontinued operations.

The legal address of AS Citadele banka is Republikas laukums 2A, Riga, LV-1010, Latvia. Domicile of the entity is Latvia, country of incorporation is Latvia. Legal form is stock company (in Latvian "akciju sabiedrība").

NOTE 3. SUMMARY OF MATERIAL ACCOUNTING POLICIES

a) Basis of preparation

These interim condensed financial statements are prepared in accordance with International Accounting Standard (IAS) 34, Interim Financial Reporting as adopted by European Union (EU) on a going concern basis. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of changes in financial position and performance of the Group and the Bank since the last annual consolidated and Bank financial statements. These interim condensed financial statements do not include all information required for a complete set of financial statements prepared in accordance with IFRS accounting standards as adopted by the European Union. This interim financial information should be read in conjunction with the 2023 annual financial statements for the Group and the Bank. Except as described below, the accounting policies applied in these interim condensed financial statements are the same as those applied in the Group's and the Bank's financial statements as at and for the year ended 31 December 2023.

The Management considers going concern basis of accounting appropriate in preparing these interim condensed financial statements; there are no material uncertainties in applying going concern basis of accounting. The Group's financial and capital position, business activities, its risk management objectives and policies and the major risks to which the Group is exposed to are disclosed in the Risk Management section of these interim condensed financial statements. Liquidity risk management is particularly important in respect to the going concern convention, as a failure to have a sufficient funding to meet payment obligations due may result in an extraordinary borrowing at excessive cost, regulatory requirement breach, delays in day-to-day settlements activities or cause the Group to no longer be a going concern; for more details refer to Liquidity risk management section. Regulatory compliance, especially capital adequacy requirements, is also significant to the going concern of the Group. The Group conducts and plans business in accordance with the available capital and in line with other regulatory requirements. For capital adequacy ratios as at period end refer to the Capital management section. The Group has implemented a comprehensive liquidity risk management and capital planning framework and policies and procedures to manage other risks.

The preparation of financial statements in conformity with IFRS accounting standards as adopted by the EU requires use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on the Management's best knowledge of current events and actions, actual results ultimately may differ from the estimated. For more details refer to the paragraph *Use of estimates and judgements in the preparation of financial statements*.

b) New standards and amendments

New standards, interpretations and amendments which were not applicable to the previous annual financial statements have been issued. Some of the standards become effective in 2024, others become effective for later reporting periods. In this section those relevant for the Group are summarised. Where the implementation impact was or is expected to be reasonably material it is disclosed.

New requirements effective for 2024 which did not have a significant effect to the Group

Amendments to IAS 1 – Classification of liabilities as current or non-current and Non-current Liabilities with Covenants
Amendments to IFRS 16 – Lease Liability in a Sale and Leaseback
Amendments to IAS 7 and IFRS 7 – Supplier Finance Arrangements

Upcoming requirements not in force for current reporting period

Certain new standards, amendments to standards and interpretations have been endorsed by EU for the accounting periods beginning after 1 January 2024 or are not yet effective in the EU. These standards have not been applied in preparing these interim condensed financial statements. The Group does not plan to adopt any of these standards early. The Group is in the process of evaluating the potential effect if any of changes arise from these new standards and interpretations.

Amendments to IAS 21 – Lack of Exchangeability

IFRS 18 – Presentation and Disclosure in Financial Statements

Amendments to IFRS 10 and IAS 28 – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures – Amendments to the Classification and Measurement of Financial Instruments

Annual Improvements to IFRS Accounting Standards. Amendments to: IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 7 Financial Instruments: Disclosures and it's accompanying Guidance on implementing IFRS 7, IFRS 9 Financial Instruments, IFRS 10 Consolidated Financial Statements and IAS 7 Statement of Cash flows.

European Sustainability Reporting Standards (ESRS)

With the implementation of the Corporate Sustainability Reporting Directive (CSRD), the adoption of ESRS standards has become mandatory starting from 2024 annual reporting cycle. The new directive updates the rules on the social, environmental and governance information that has to be reported, including introducing a double materiality perspective acknowledging risks and opportunities from both financial and nonfinancial perspectives, how these affect Citadele and how operations of Citadele affect the environment and the society.

c) Functional and Presentation Currency

The functional currency of each of the Group's consolidated entities is the currency of the primary economic environment in which the entity operates. The functional currency of the Bank, its Baltic subsidiaries, and the Group's presentation currency, is Euro ("EUR"). The functional currency of majority of the Group's foreign subsidiaries is also Euro. The accompanying financial statements are presented in thousands of Euros.

d) Use of estimates and judgements in the preparation of financial statements

The preparation of financial statements in conformity with IFRS accounting standards as adopted by EU, requires Management to make estimates and judgements that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingencies. The Management has applied reasonable and prudent estimates and judgments in preparing these interim condensed financial statements. Significant areas of estimation used in the preparation of the accompanying interim condensed financial statements relate to the evaluation of impairment losses for financial and non-financial assets. Critical judgements made in the preparation of the accompanying interim condensed financial statements relate to the determination of whether the group has control over certain investees for consolidation purposes, the determination of whether Kaleido Privatbank AG constitutes a discontinued operation held for sale, and capitalization of costs related to review of strategic alternatives.

Impairment of loans to public, loan commitments, financial guarantee contracts and finance lease receivables

The Group regularly reviews its loans to public, loan commitments, financial guarantee contracts and finance lease receivables for assessment of impairment. The estimation of impairment losses is inherently uncertain and dependent upon many factors. Two distinct approaches are applied for expected credit loss estimation – individual evaluation, applied to material NPL (Non-Performing loans) exposures, and collectively estimated expected credit losses for homogeneous groups of smaller exposures.

When calculating the expected credit losses according to the individual approach, expected credit losses are calculated on an individual basis with reference to the expected future cash flows including those arising from the sale of collateral. For individually assessed loans, the expected future cash flows are estimated using one of the following principles: going concern principle and gone concern principle. The Group uses its experienced judgement and forecasts to estimate the amount of any expected credit losses considering future economic conditions and the resulting trading performance of the borrower and the value of the collateral. Assessment of credit losses according to the individual approach is carried out regularly and as circumstances change and a new information is obtained, the individually assessed estimated credit losses may change over time.

Changes in net present value of estimated future cash flows, except for changes in cash flows from collateral, by +/-5% for loans to public for which expected credit losses are individually assessed would change insignificantly – by EUR +/- 0.02 million in impairment allowance for the Bank (2023: EUR 0.00 million) as recovery estimates mostly happen to be based solely on collateral disposal income and EUR +/-0.38 million for the Group (2023: EUR +/-0.10 million). Change in estimated value of collateral by +/-5% for loans to public for which expected credit losses are individually assessed would result in EUR +/-0.34 million change in impairment allowance for the Bank (2023: EUR +/-0.20 million) and EUR +/-0.78 million for the Group (2023: EUR +/-0.40 million).

For majority of the loans to public, loan commitments, financial guarantee contracts and finance lease receivables the Group collectively estimates impairment allowance to cover expected losses inherent in the portfolio. The collective impairment assessment is based on observable data derived from historic and applied to current exposures to clients with similar credit risk characteristics. For this assessment exposures to clients are segmented into homogeneous groups based on product type (mortgage, consumer loan, leases etc.) and customer type (private individual, legal entity, public entity etc.). Historical loss experience is adjusted for current observable market data using the Group's experienced judgement to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. The major parameters of the collectively assessed expected credit loss calculation methodology are PD, LGD, EAD and staging outcome. The model also incorporates forward-looking macroeconomic information to arrive to point in time instead of over the cycle expected credit loss estimates. The future credit quality of the portfolio for which the expected credit losses are estimated collective is subject to uncertainties that could cause actual credit losses to differ from expected credit losses. These uncertainties include factors such as international and local economic conditions, borrower specific factors, industry and market trends, interest rates, unemployment rates and other external factors.

In the reporting period the management continued to recognize impairment overlay. Impairment overlay continued amortizing within existing framework with the exposures being repaid or moving to different stages where ECL models capture credit risk. The Group and the Bank has recognised an unbiased impairment overlay for Stage 1 classified loans to public exposures, including extra overlay for Stage 1 agriculture sector exposures which have been negatively affected by external factors and an individual overlay for certain other Stage 2 classified exposures. The impairment overlay represents an additional loss reserve over the modelled ECL amounts to account for other economic uncertainties and addresses uncertainty regarding the forward-looking economic conditions and possible disruptions to the Baltic economies and customers of the Group. The impairment overlay accounted for economic risks which point in time ECL models calibrated on historical data, despite being adjusted with forward-looking information, might not be fully capturing in the current unusual environment. As of the period end, impairment overlay (which continued amortizing within existing framework) of EUR 10.1 million for the Bank (2023: EUR 11.3 million) and EUR 13.3 million for the Group has been recognised to address these modelling uncertainties (2023: EUR 17.5 million).

Changes in all applied LGD rates by 500 basis points would result in change in collectively estimated impairment allowance and provisions by EUR +4.0/-4.0 million for the Bank and EUR +6.5/-6.5 million for the Group (2023: EUR +5.1/-5.2 million for the Bank and EUR +7.5/-7.6 million for the Group). Sensitivity to changes in LGD rates has decreased largely due to recent updates in methodology and models. Changes in the 12-month PD rates by 100 basis points would result in change in collectively estimated impairment allowance and provisions for off-balance sheet commitments and guarantees by EUR +5.8/-5.8 million for the Bank and EUR +9.0/-9.0 million for the Group (2023: EUR +6.3/-6.3 million for the Bank and EUR +9.0/-9.0 million).

The Group includes forward-looking information in the measurement of expected credit losses. The forward-looking adjustment incorporates three economic scenarios with distinct economic consequences: a base case scenario which comprises most likely future economic development, a less likely adverse scenario and positive scenario. The GDP annual growth rates, which are derived from a combination of internal and external macroeconomic forecasts, are one of the key variables. As of the period end, based on a thorough analysis and comprehensive assessment, Citadele has decided to forego quarterly update of the economic scenarios underpinning forward-looking adjustment. The updated scenarios would have resulted in EUR 5.1 million ECL release as of the period end which would have led to excess volatility in ECL and might not reflect underlying longer term credit risk. Next quarterly update is scheduled for the year end when scenarios underpinning forward-looking adjustment will be revisited.

Key forward-looking information variables for measurement of expected credit losses as of 30 September 2024

	Baseline scenario			Adverse scenario			Positive scenario		
	2024	2025	2026	2024	2025	2026	2024	2025	2026
Latvia									
GDP (annual change)	3.0%	2.7%	2.7%	0.1%	2.7%	3.0%	5.1%	2.7%	2.5%
Unemployment rate	6.4%	5.7%	5.1%	8.3%	7.1%	6.2%	5.2%	5.0%	4.5%
Average gross wage (annual change)	6.2%	5.1%	5.2%	3.9%	4.9%	5.3%	7.7%	5.3%	5.2%
Lithuania									
GDP (annual change)	2.6%	2.9%	2.7%	(0.4%)	2.9%	3.0%	4.6%	2.9%	2.5%
Unemployment rate	6.5%	5.8%	5.2%	8.4%	7.1%	6.3%	5.3%	5.0%	4.6%
Average gross wage (annual change)	6.3%	5.5%	5.3%	4.1%	5.2%	5.4%	7.9%	5.6%	5.3%
Estonia									
GDP (annual change)	1.7%	2.9%	2.7%	(1.3%)	2.9%	3.0%	3.8%	2.9%	2.5%
Unemployment rate	6.8%	6.0%	5.2%	8.7%	7.3%	6.3%	5.6%	5.2%	4.6%
Average gross wage (annual change)	5.8%	5.5%	5.2%	3.5%	5.3%	5.3%	7.3%	5.7%	5.2%

Key forward-looking information variables for measurement of expected credit losses as of 31 December 2023

	Baseline scenario			Adverse scenario			Positive scenario		
	2024	2025	2026	2024	2025	2026	2024	2025	2026
Latvia									
GDP (annual change)	2.0%	2.8%	2.7%	(0.9%)	2.8%	3.0%	4.1%	2.8%	2.5%
Unemployment rate	6.5%	5.6%	5.1%	8.4%	6.9%	6.2%	5.1%	4.7%	4.4%
Average gross wage (annual change)	7.0%	5.2%	5.2%	4.8%	5.0%	5.2%	8.6%	5.4%	5.2%
Lithuania									
GDP (annual change)	2.0%	3.0%	2.8%	(0.9%)	3.0%	3.0%	4.1%	3.0%	2.6%
Unemployment rate	6.0%	5.2%	4.8%	7.9%	6.6%	5.8%	4.6%	4.3%	4.1%
Average gross wage (annual change)	7.0%	5.4%	5.3%	4.7%	5.2%	5.3%	8.5%	5.6%	5.3%
Estonia									
GDP (annual change)	2.3%	3.0%	2.8%	(0.6%)	3.0%	3.0%	4.4%	3.0%	2.6%
Unemployment rate	6.7%	5.6%	5.0%	8.6%	6.9%	6.1%	5.3%	4.7%	4.3%
Average gross wage (annual change)	6.1%	5.7%	5.4%	3.9%	5.4%	5.4%	7.6%	5.8%	5.3%

The current forward-looking adjustment weights baseline scenario with 50% likelihood, the adverse scenario at 45% likelihood and positive scenario at 5% likelihood (2023: 50% base case scenario, 45% adverse scenario and 5% positive scenario). The 50% / 45% / 5% weighted augmented scenario is used for forward-looking adjustment. If the weighting of the baseline scenario was to increase to 100%, the expected credit loss allowance of the Bank would decrease by EUR 5.2 million and for the Group by EUR 7.7 million as of the period end (2023: EUR 6.5 million for the Bank and EUR 8.6 million for the Group). If the weighting of the adverse scenario was to increase to 100%, the expected credit loss allowance of the Bank would increase by EUR 9.6 million and for the Group by EUR 13.5 million as of the period end (2023: EUR 8.7 million for the Bank and EUR 11.6 million for the Group). If the weighting of the positive scenario was to increase to 100%, the expected credit loss allowance of the Bank would decrease by EUR 15.5 million and for the Group by EUR 22.5 million as of the period end (2023: EUR 11.6 million for the Bank and EUR 16.4 million for the Group).

In the reporting period changes to ECL models were introduced. For more details on these, refer to note *Net Credit Losses.*

Impairment of non-financial assets and recoverability of non-current assets held for sale

Citadele at the end of each reporting period assesses whether there is any indication that Bank's investments in subsidiaries may be impaired; this also includes an investment in subsidiary classified as held for sale and non-financial assets of discontinued operations. For investments, where such indication exists, the recoverable amount of the particular asset or cash generating unit is estimate. Recoverable amount estimates depend on uncertainties in future free cash flow estimates and discount rates applied or estimated sales proceeds. For more details on the approach and key assumptions in recoverable amount estimates of the Bank's investments in subsidiaries refer to note *Investments in Related Entities*. For assessment of fair value less cost to sell for these items classified as held for sale refer to note *Discontinued Operations and Non-current assets held for sale*.

Capitalization of costs related to review of strategic alternatives

Citadele is exploring strategic alternatives to maximize value for its shareholders and customers. As part of this strategic process, Citadele is considering all potential alternatives that can deliver value for the Bank's shareholders and customers. Such alternatives could include an initial public offering of its shares or other possible strategic transactions. Citadele has hired financial advisors and lawyers to assist in its review of the strategic alternatives. EUR 3 million part of these costs have been capitalised. The Bank is confident that this process will contribute to successful transaction and associated costs are eligible for capitalisation.

Consolidation group

The Group consolidates all entities where it controls the investee. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. For list of investees included in the consolidation group refer to note *Investments in Related Entities*.

In the ordinary course of business IPAS CBL Asset Management (a subsidiary of the Bank) provides management services to funds where its interest held is mainly fees from servicing. The Group and the Bank have made some investments solely with a view to diversify its securities portfolio in such funds. Most of these investments are held by unit-linked investors through the insurance entity, thus the holdings do not translate into variable benefits for the Group. The Group thus assesses that the majority of return variability within funds lies with its customers rather than the Group. Thus, these funds are not consolidated. For investments in securities which are not consolidated refer to note *Equity and Other Financial Instruments*.

Presentation of Kaleido Privatbank AG as discontinued operations held for sale

AS Citadele banka is selling its Swiss subsidiary Kaleido Privatbank AG under market standard terms and conditions. At the end of 2023 it was concluded that successful execution of the previous sales-purchase agreement is no longer feasible, and the contract was terminated. The Group is working with a reputable M&A advisor on an alternative sales transaction. As the conditions indicate that the investment will be recovered principally through a sale transaction in a foreseeable future rather than through continuing operations, Kaleido Privatbank AG is presented as discontinued operations as of period end. Citadele has received several offers and is working with a buyer on a transaction and has taken steps to improve certainty that regulatory approval for potential sale will be obtained.

NOTE 4. OPERATING SEGMENTS

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the person or the group that allocates resources to and assesses the performance of the operating segments of the Group. The Management Board of the Bank is the chief operating decision maker.

All transactions between operating segments are on an arm's length basis. Funds Transfer Pricing (FTP) adjusted net interest income of each operating segment is calculated by applying internal transfer rates to the assets and the liabilities of the segment. Maturity, currency and timing of the transaction are components of the internal transfer rate calculation. Income and expense are reported in the segment by originating unit and at estimated fair price. Both direct and indirect expenses are allocated to the business segments, including overheads and non-recurring items. The indirect expense from internal services is charged to the internal consumers of the service and credited to provider of the service. The internal services are charged at estimated fair price or at full cost.

The comparative information as of 31 December 2023 and for the nine months ended 30 September 2023 has been restated for comparability by applying the most recent segmentation methodology. Changes mostly relate to redistribution of exposures and related income and expense among segments as a result of reallocation of clients among operating segments.

Main business segments of the Group are:

Retail Private

Private individuals serviced in Latvia, Lithuania and Estonia. Operations of the segment include full banking, leasing and advisory services provided through branches, internet bank and mobile banking application.

Private affluent

Private banking services provided to clients serviced in Latvia, Lithuania and Estonia.

SME

Small and medium-sized companies in Latvia, Lithuania and Estonia serviced through branches, internet bank and mobile banking application.

Corporate

Large customers serviced in Latvia, Lithuania and Estonia. Yearly turnover of the customer is above EUR 15 million or total risk exposure with Citadele Group is above EUR 5 million or the customer needs complex financing solutions.

Asset management

Advisory, investment and wealth management services provided to clients serviced in Latvia, Lithuania and Estonia. This segment includes operations of IPAS CBL Asset Management, AS CBL Atklātais Pensiju Fonds and AAS CBL Life.

Other

Group's treasury functions and other business support functions, including results of the subsidiary of the Group operating in non-financial sector. This comprises discontinued operations, namely operations of Kaleido Privatbank AG (a Swiss registered banking subsidiary) which is for sell.

Fee and commission expense for securitisation represents an expense on a multi-year financial guarantee contract issued by the EIB Group, consisting of the European Investment Bank (EIB) and the European Investment Fund (EIF), to Citadele in December 2022. The guarantee contract secures probable Citadele's future losses allocated to the relevant tranche of the reference loan portfolio for a pre-agreed fee to the EIB Group. The guarantee contract provides capital relief for Citadele by mitigating specific credit risks and enables Citadele to grant at least EUR 460 million in additional loans and leases to businesses in the Baltics over a three year period.

When modification or renegotiation of contractual cash flows of a financial asset does not result in de-recognition of financial asset, the Group recognise a modification gain or loss in profit or loss. The beginning of 2024 was characterised by competitive market environment, where more interest rates for existing loans were renegotiated down than up, resulting in EUR 1.4 million negative loan modification loss in H1 2024. Loan modification result is amortised back to the interest income over the remaining maturity of the loan.

Non-share-based remuneration with deferred pay-out

Part of the remuneration for work is deferred up to a one-year period and subsequent pay-outs may be conditional.

Share-based long-term incentive plans

Citadele has opened several share-based long-term incentive plans for its employees comprising share options. The expense for share-based incentive plans is recognised on a straight-line basis over the period of the remuneration program as intention is to receive services from employees over the whole period. In Q3 2024 management's remuneration expense decreased as a result of revised estimate of the number of share options expected to vest. Revision of estimates is mainly related to changes in the Bank's management.

Total net losses on financial instruments	**2,434**	**6,533**	**(4,481)**	**2,771**	**5,093**	**2,520**	**(5,662)**	**930**

Allowances for credit losses are recognised based on the future loss expectations. The forward-looking information in the measurement of expected credit losses is implemented through adjustment for future economic development scenarios. Due to the forward-looking nature of the credit loss estimation, in general the change in loss allowances does not necessarily represent an observable deterioration in the current credit quality of the loan portfolio (for detail refer to *note Loans to Public*) but is more a representation of an expectation of the future trends in the economic out-look.

The Group and the Bank has recognised an impairment overlay for Stage 1 and Stage 2 classified loans to public exposures. The impairment overlay addresses uncertainty regarding the forward-looking economic conditions in the unusual environment where severity of future economic uncertainties and associated possible disruptions to the Baltic economies and customers of the Group is undefined. The impairment overlay accounted for economic risks which point in time ECL models calibrated on historical data, despite being adjusted with forward-looking information, might not be fully capturing. See also section *Use of estimates and judgements in the preparation of financial statements* of the note *Summary of material accounting policies*.

In the reporting period several adjustments were introduced in the collective provisioning models, ranging from updates in methodology incorporating forward-looking information to improvements in LGD modelling. The updates in methodology incorporating forward-looking information include input of the recent representative statistics and updates in historical data periods used which resulted in decreasing PDs most notably in the retail segment. LGD segments have been consolidated into broader groups. Updates aim to keep ECL models up-to-date and to deliver robust results, based on qualitative data and transparent methodological choices. Portfolio-wide (inflation) and industry-specific (agriculture) overlays continued amortizing within existing framework with the exposures being repaid or moving to different stages where ECL models capture credit risk. Overlays created for individually assessed groups also have decreased in the reporting period as exposures with individual overlays have moved to lower or higher stages resulting in the individually assessed overlay removal.

Classification of impairment stages

Stage 1 – Financial instruments without significant increase in credit risk since initial recognition

Stage 2 – Financial instruments with significant increase in credit risk since initial recognition but not credit-impaired

Stage 3 – Credit-impaired financial instruments

Including for debt securities classified at fair value through other comprehensive income	*101*						*46*

For additional information on write-offs of allowances please refer to note *Loans to Public*.

For purchased or originated credit impaired (POCI) loans only the cumulative changes in the lifetime expected credit losses since purchase by Citadele or the most recent re-origination is recognised as a loss allowance. Favourable changes in lifetime expected credit losses are recognised as an impairment gain, even if the lifetime expected credit losses to be recognised are less than the amount of expected credit losses that were included in the estimated cash flows on the designation as POCI. For POCI loans acquired in business combinations, the initial recognition date in the Group's consolidated accounts is the purchase date of the subsidiary.

In Latvia an advance corporate income tax (CIT) is payable at 20% rate on unadjusted accounting profits earned in Latvia starting from 2023 on the Latvian banking and leasing operations, with the advance paid being eligible to fully offset dividend distribution tax with no expiry date. As these CIT advance payments may be offset only against tax due from future profit distribution, the amount of the CIT advances paid is expensed as profits are generated. Previously, until Q4 2023, for banking and leasing operations CIT in Latvia was payable when the profits were distributed, not when the profits were earned. For other Latvian operations, CIT is still payable only when the profits are distributed.

For distributions of Latvian profits, a theoretical 20% CIT rate apply and is calculated as 0.2/0.8 from net distributed dividend (effectively 25% tax rate), but the profit distribution tax payment is decreased by the already paid CIT advance in 2023 and later period profits. Thus, incremental profit distribution tax expense on 2023 and later period profits would arise only if the profit distribution tax exceeded the CIT advance already paid.

In Latvia, no incremental CIT expense arise on the Bank's dividend distribution from retained earnings generated under the tax regime that was effective before 2018. Such Bank's retained earnings as of the period end amount to EUR 11.2 million (2023: EUR 61.8 million). EUR 50.6 million dividend distribution in 2024 decreased this amount. Similarly, for the Bank as of the period end no incremental CIT expense arises on distribution of additional EUR 22.9 million (2023: EUR 17.2 million) profits for which tax has been paid when these were distributed from subsidiaries and branches. Currently there is no expiry date for these distribution rights.

The Latvian government has introduced a mortgage loan levy effective for 2024 (one year) with a purpose to reimburse mortgage borrowers for some of the impact of the higher interest rate environment experienced from mid-2023. The mortgage loan levy is calculated as 0.5% on the Latvian gross mortgage loan portfolio as of 31 October 2023. The levy is payable on the first month of each calendar quarter in 2024 in the amount of EUR 2.2 million quarterly. The Group has concluded that the levy is an expense for 2024 and should be expensed based on the calculated amounts in the respective quarters in 2024 as the obligation for the Group to pay arises only if it is liable to declare on the respective dates in 2024.

The Latvian government is discussing changes in tax legislation for 2025, including possible solidarity tax on interest income.

In Estonia similarly, as for Latvian operations, any CIT advance paid, is expensed in the reporting period as profits are generated. For banks in 2024 a 14% tax advance rate applies, increasing to 18% in 2025. On dividend disbursement in 2024 CIT is calculated based on proportion 20/80 (effectively 25% tax rate), in 2025 based on proportion 22/78 effectively approximately 28% tax rate). The calculated profit distribution tax payment is decreased by the already paid CIT advance. As of period end EUR 33.7 million of Group's undistributed retained earnings are accumulated in Estonian jurisdiction.

Corporate income tax in Lithuania is calculated at 15% rate on taxable profits (increasing to 16% in 2025), an extra 5% corporate income tax for Bank is charged on taxable profits exceeding EUR 2.0 million. Bank tax (windfall tax) in Lithuania is calculated on certain increases in net interest income vs. reference period and is presented as levy in the income statement line Bank tax. Bank tax asset represents quarterly tax advance overpayment vs. calculated full year bank tax.

Income tax assets and liabilities

Unrated debt securities or debt securities with lower ratings than BBB are mainly with corporates and are acquired or in some cases structured by the Bank as an alternative to ordinary lending transactions. Among considerations for originating such lending products is longer-term indirect benefits from development in local corporate debt markets and higher potential liquidity for lending products structured as debt securities.

Stage 3 loans to public ratios

	30/09/2024 Group	31/12/2023 Group	30/09/2024 Bank	31/12/2023 Bank
Stage 3 gross loans ratio	**2.0%**	**2.1%**	**1.3%**	**1.8%**
Stage 3 net loans ratio	**1.0%**	**1.1%**	**0.4%**	**0.8%**
Stage 3 impairment ratio	**52%**	**49%**	**68%**	**55%**

In the reporting period EUR 6.2 million part of a previously fully impaired exposure was written-off which as of 30 September 2024 had impact of 0.2% on the Group's and the Bank's Stage 3 gross loans ratio and a decrease in the Stage 3 impairment coverage ratio by 4 percentage points for the Group and 9 percentage points for the Bank.

The stage 3 loans ratio is calculated as stage 3 loans to public divided by total loans to public as of the end of the relevant period. All loans overdue by more than 90 days are classified as stage 3. Non-overdue loans and loans overdue less than 90 days which have been forborne or impairment losses have been identified based on individual assessment or financial condition of the borrower has deteriorated significantly due to other factors are classified as stage 3. Part of the loans classified as stage 3 do not have any current default indicators but are put under monitoring period for a specific time before being reclassified out of stage 3. Loans under recovery are also classified as stage 3.

The stage 3 impairment ratio is calculated as impairment allowance for stage 3 exposures divided by gross loans to public classified as stage 3. Impairment allowance is the amount of expected credit loss expensed in the income statement as credit loss and is derived from historic credit loss rates and future credit loss expectations, and where relevant considering fair value of the loan collateral and expected proceeds from other loan recovery measures.

Most exposures in mutual investment funds which are classified as financial assets mandatorily at fair value through profit or loss are related to the life insurance business, most of these with unit-linked insurance plan assets. According to unit-linked investment contract terms, the risk associated with the investments made by the insurance underwriter is fully attributable to the counterparty entering the insurance agreement and not the underwriter. All investments in mutual investment funds are mandatorily classified as financial assets at fair value through profit or loss.

Part of the Bank's and the Group's investments in mutual investment funds, which are managed by IPAS CBL Asset Management, are related to unit-linked contracts, where the risk associated with the investments made is fully attributable to the counterparty entering the insurance agreement and not the underwriter. These exposures have been acquired only with investment intentions. The Bank has no exposure to investments related to unit-linked contracts.

Changes in investments in subsidiaries

In the reporting period investment in SIA Mobilly was transferred to discontinued operations held for sale, and in August 2024 the sale of SIA Mobilly was completed.

Valuation of investments in subsidiaries

In the reporting period valuation of SIA Citadele Factoring and SIA Hortus Residential was reassessed. In total EUR 0.9 million (net) impairment in the investments in these subsidiaries was released as operating profits have been accumulated and were not distributed to shareholders while valuation uncertainties as legacy lease portfolio continues to amortise decrease.

Carrying value of the investment in SIA Citadele Factoring is derived from present value of expected free equity distributable to the shareholders, after required equity allocation for capital adequacy compliance. The target capital adequacy ratio is set at 13.0% and includes allocated charges for all banking risks inherent in the business model of the leasing (2023: 13.0%). Other key inputs of the model are 14.5% (2023: 15.4%) discount rate and future profitability of the operations of the entity.

Kaleido Privatbank AG is a 100% owned subsidiary classified as discontinued operations held for sale (for details refer to note *Discontinued Operations and Non-current Assets Held For Sale*). Registration number of Kaleido Privatbank AG is 130.0.007.738-0, it is registered in Switzerland with legal address in Bellerivestrasse 17, 8008, Zürich.

NOTE 17. DISCONTINUED OPERATIONS AND NON-CURRENT ASSETS HELD FOR SALE

AS Citadele banka is selling its Swiss subsidiary Kaleido Privatbank AG under market standard terms and conditions. AS Citadele banka had entered into a binding agreement regarding the sale of its Swiss subsidiary – Kaleido Privatbank AG. The closing was subject to regulatory approvals and took longer than expected. In 2023 it was concluded that successful execution of this sales-purchase agreement was no longer feasible and was decided to terminate the previous contract.

The Group is working with a reputable M&A advisor on an alternative sales transaction. As the conditions indicate that the investment will be recovered principally through a sale transaction in a foreseeable future rather than through continuing operations, Kaleido Privatbank AG is presented as discontinued operations as of period end. Citadele has received several offers and is working with a buyer on transaction, and has taken steps to improve certainty that regulatory approval for potential sale will be obtained. The Management has a strong commitment to sell Kaleido Privatbank AG and this is a further step focusing on Citadele's core activities in the Baltics and is in line with Citadele's long-term ambition to become the leading financial services provider in the Baltics.

In 2024 the management of the Bank increased share capital of Swiss subsidiary Kaleido Privatbank AG by CHF 3.0 million. The capital increase supports operations of the subsidiary. The subsidiary is classified as discontinued operations held for sale.

Write-down of investment in Kaleido Privatbank AG

In the reporting period the Bank recognised EUR 15.1 million write-down on the investment in Kaleido Privatbank AG equal to the lower of the carrying amount and fair value less cost to sell (2023: EUR 5.1 million). The write-down relates to the loss of the operations in the respective period and the re-estimated net sales proceeds, including cost to sell. The fair value less cost to sell of the investment, represents the most recent estimate of the net sales proceeds. The write-down is presented in the statement of income as net result from non-current assets held for sale and discontinued operations. On the consolidated level EUR 0.7 million write-off of non-financial assets has been recognized as previous carrying value of these is deemed unrecoverable in the expected sales transaction.

Key features of the issued subordinated bonds and MREL eligible senior unsecured bonds

EUR 200 million senior unsecured preferred bonds (XS2393742122) have a five-years maturity, with issuer's optional redemption date after four years. The purpose of the issuance is to meet Minimum Requirement for own funds and Eligible Liabilities (MREL). The senior unsecured preferred bonds were offered to institutional investors. The bonds are listed on Euronext Dublin and Nasdaq Riga.

EUR 40 million (LV0000880102), EUR 20 million (LV0000880011) and EUR 20 million (LV0000803054) unsecured subordinated bonds were issued in the local Baltic capital markets with ten years maturity and issuer's optional early redemption rights. These subordinated bonds are included in the Tier 2 capital of Citadele and contribute to stronger capital position of the Bank. The unsecured subordinated bonds were offered to institutional and retail investors in Latvia, Lithuania and Estonia, as well as institutional investors located in the Member States of the EEA.

Unsecured subordinated securities qualify for inclusion in the Bank's and the Group's Tier 2 capital. For details on capital adequacy refer to *Capital management* section of the note *Risk Management*.

NOTE 21. SHARE CAPITAL

The Bank has one class dematerialised shares, i.e. recorded in the depositary (Nasdaq CSD SE). On 19 July 2024 the Bank's total paid capital was increased from EUR 158,240,718 to EUR 158,453,678 and conditional capital was decreased from EUR 3,807,496 to EUR 3,594,536 (2023: EUR 2,907,496). In the reporting period 212,960 employee options vested and were converted to shares. The conditional capital represents the maximum number of shares that may be allocated for awarding to employees as share options. As of the period end the Bank owns EUR 62,476 (2023: EUR 95,476) of its own shares. Each dematerialised share carries one vote, a share in profits and is eligible for dividends (except for shares owned by the Bank itself). On 28 March 2024 a dividend of EUR 0.32 per share, which is EUR 50.6 million in total, was approved (2023: EUR 20.0 million total dividends which is c.a. EUR 0.127 per share). Dividends were disbursed to the shareholders on 7 May 2024.

Earnings per share

Basic earnings per share are calculated by dividing the net profit that is attributable to the shareholders by the weighted average number of the shares outstanding during the period. Diluted earnings per share are determined by adjusting the net profit that is attributable to the shareholders and the weighted-average number of the shares outstanding for the effects of all dilutive potential shares, which comprise share options granted to employees in the long-term incentive programs. The part of the performance-based employee share options for which the services under the approved long-term incentive programs have been received are included in the calculation of diluted earnings per share. The part of the performance-based employee share options, issuance of which is contingent upon satisfying specific conditions, in addition to the passage of time, are treated as contingently issuable shares. For contingently issuable share options where these conditions are not fully satisfied, the number of contingently issuable shares included in diluted earnings per share is based on the number of shares that would be issuable if the reporting date were the end of the contingency period.

Net credit risk exposure for financial commitments	**361,231**	**354,850**	**408,798**	**372,839**

Lending commitments are a time limited promise that a specified amount of loan or credit line will be made available to the specific borrower on specific pre-agreed terms. For part of the committed lending promises clients have to perform certain obligations before the balance committed becomes available to them.

In the reporting period several adjustments were introduced in the collective provisioning models which resulted in decreasing PDs, thus positively affecting provisions for financial commitments, guarantees and letters of credit. For details on the methodology changes refer to note *Net Credit Losses*. Besides methodology changes, provisions in the reporting period were released due to improvements in the risk profile of several large committed exposures as new collaterals were registered resulting in an uplift in the LGDs for these exposures.

NOTE 25. FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES

Fair value is the price that would be received for an asset sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

Fair value hierarchy

Quoted market prices (Level 1) – Financial instruments are valued using unadjusted quoted prices in active markets.

Valuation technique: observable market inputs (Level 2) – Financial instruments are valued using techniques based on observable market data. In some instances, valuations received from independent third party are used or quotations from less active market.

Valuation technique: non-market observable inputs (Level 3) – Financial instruments are valued using techniques for which significant inputs are not based on observable market data.

Fair values of financial assets and liabilities of the Group on 30 September 2024

Balance as at the end of the period	**1,805**	**2,758**

In the reporting period from financial liabilities designated at fair value through profit or loss which are not unit-linked the Group has recognised net revaluation result of EUR -59 thousand in the net financial income line of the statement of income (2023: EUR 162 thousand). Deposits and borrowings from customers measured at fair value and categorised as Level 3 relates to investment contracts of the Group's life insurance business. For such contracts premiums received are recognised as liabilities of the Group since settlement with small variation in due term is expected. For more details on insurance liabilities refer to *Insurance reserves* section of the note *Risk Management*.

During the reporting period no direct public subsidies were received from the public sector of the respective countries where the Group operates (2023: EUR 0.0 million).

NOTE 27. RISK MANAGEMENT

Risk management policies

The Group considers risk management to be an essential component of its management process. The Group pursues prudent risk management that is aligned with its business ambitions and aims to achieve effective risk mitigation. To assess and monitor complex risk exposures, the Group applies a wide range of risk management tools in conjunction with risk committees. Members of the risk committees represent various operations of the Group to balance business and risk within the respective risk committees. Annually Group defines its Risk Appetite Framework which sets acceptable risk-taking limits across all relevant risk types, considering business goals, macroeconomic environment and regulatory setting. Risk appetite limits are cascaded to all risk management strategies and implemented operationally through detailed internal regulations.

The Group's risk management principles are set out in its Risk Management Policy. The Group adheres to the following key risk management principles:

- The Group aims to ensure that it maintains low overall risk exposure, diversified asset portfolio, limited risks in financial markets and low levels of operational risk;
- The Group aims to ensure an acceptable risk level in all operations. Risks are always assessed in relation to their expected return. Risk exposures that are not acceptable are avoided, limited or hedged;
- The Group does not assume high or uncontrollable risks irrespective of the return they provide and assumes risks only in economic fields and geographical regions in relation to which it believes it has sufficient knowledge and expertise;
- Risk management is based on each Group's employee's responsibility for the transactions carried out by him/her and awareness of the related risks;
- Risk limit system and strict controls are essential risk management elements. Control over risk levels and compliance with the imposed limits is achieved by the existence of structured risk limit systems for all material risks.

The aim of the risk management in the Group is to facilitate the achievement of the Group's goals, sustainable growth, long-term financial stability and to protect the Group from unidentified risks. The Bank has appointed a Risk Director (CRO) who is a member of the Bank's Management Board and whose responsibilities do not include the duties related to the activities under control. The CRO has a direct access to the Bank's Supervisory Board. The Risk Committee, which is subordinated to the Bank's Supervisory Board, has been established in the Bank. The main task of the Risk Committee is to provide support to the Bank's Supervisory Board in relation to the monitoring of the Group's risk management system. The Risk Committee established by the Bank's Supervisory Board provides recommendations to the Bank's Management Board regarding improvements of the risk management system. Risk management within the Group is controlled by an independent unit – the Risk Division.

The main risks to which the Group is exposed are credit risk, market risk, interest rate risk, liquidity risk, currency risk and operational risk and environmental and climate-related risk. For each of these risks the Group has approved risk management policies and other internal regulations defining key risk management principles and processes, functions and responsibilities of units, risk concentration limits, as well as control and reporting system. The Bank's Supervisory Board approves risk management policies and ensures the control of efficiency of the risk management system. The Bank's Management Board and CRO ensure implementation of the risk management policies and development of internal regulations for the management of each material risk within the Group. In order to assess and monitor material and complex risk exposures, the Bank's Management Board establishes risk committees. Members of risk committees represent various units of the Group to ensure the balance between the units responsible for risk monitoring and control and the units with business orientation.

Since the latest annual reporting date, the Group's exposure to risks has not changed materially, other than disclosed in this report. For more details on the Group's risk management policies refer to the latest annual report of the Group and the interim disclosures below.

Insurance reserves

	EUR thousands			
	30/09/2024 Group	**31/12/2023 Group**	**30/09/2024 Bank**	**31/12/2023 Bank**
Insurance reserves:				
Annuity pension products	14,665	10,059	-	-
Other life insurance reserves	2,510	2,199	-	-

Insurance reserves are presented as part of *Other liabilities*. Insurance reserves mostly comprise estimated present value of future cash outflows from defined benefit annuity pension products sold to customers by Group's subsidiary AAS CBL Life. The annuity products are subject to terms, conditions and limitations. Estimated cash outflows are conditional to life longevity assumptions and defined benefit payment structure.

CSM part of annuity pension products would change by EUR -/+35 thousands (2023: EUR -12/+30 thousands) if future expected expenses were to change by +/-15%. If discount rates, which were used in calculation of annuity pension product reserve, were to change by +/-1.0 percentage point, the Group's net result would change by EUR +0.9/-1.0 million (2023: EUR +/-0.6 million).

Liquidity coverage ratio

The general principles of the liquidity coverage ratio (LCR) as measurements of the Bank's and the Group's liquidity position is defined in the Regulation (EC) No 575/2013. The Commission Delegated Regulation (EU) 2015/61 defines general LCR calculation principles in more details. The minimum LCR requirement is 100% and it represents the amount of liquidity available to cover calculated net future liquidity outflows. The Bank and the Group is compliant with LCR requirements.

Net stable funding ratio (including 50% of the net result for the period, i.e. decreased in line with dividend policy)

The net stable funding ratio (NSFR) is defined in the Regulation (EC) No 575/2013. NSFR is the ratio of the available amount of stable funding to the required amount of stable funding over one-year horizon. The minimum NSFR requirement is 100%. The minimum NSFR requirement is 100%. NSFR as of period end, if no Q3 2024 interim profits are included, for the Group is 143% and for the Bank is 205%.

Capital management

Capital adequacy is calculated in accordance with the current global standards of the bank capital adequacy (the Basel III international regulatory framework) as implemented by the European Union via a regulation (EU) 575/2013 and a directive 2013/36/EU, rules and recommendations issued by supervisory authorities and other relevant regulations.

Capital adequacy is a measure of sufficiency of the Group's eligible capital resources to cover credit risks, market risks, operational risk and other specific risks arising predominantly from asset and off-balance sheet exposures of the Group. The regulations require credit institutions to maintain a Total Capital adequacy ratio of 8.0% of the total risk weighted exposure amounts. The rules also require 4.5% minimum Common Equity Tier 1 capital ratio and 6.0% minimum Tier 1 capital ratio.

Total SREP capital requirement (TSCR) requires capital to cover risks in addition to these covered by the regulation (EU) 575/2013. TSCR is established in a supervisory review and evaluation process (SREP) carried out by the supervisory authority. The supervisory authority determines TSCR on a risk-by-risk basis, using supervisory judgement, the outcome of supervisory benchmarking, ICAAP calculations and other relevant inputs. The additional pillar 2 capital requirement is re-assessed annually by the supervisory authority. As of the period end based on the assessment of the supervisory authority an additional 2.50% own funds requirement is determined to cover Pillar 2 risks. Thus, as of the period end Citadele shall at all times meet, on a consolidated basis, a total SREP capital requirement (TSCR) of 10.5% (which includes a Pillar 2 additional own funds requirement of 2.5% to be held in the form of 56.25% of Common Equity Tier 1 (CET1) capital and 75% of Tier 1 capital, as a minimum).

On top of the minimum capital adequacy ratios and the Pillar 2 additional capital requirements (TSCR), the Group and the Bank must comply with the capital buffer requirements. The buffer requirements must be reached by Common Equity Tier 1 capital. The capital conservation buffer both for the Group and the Bank is set at 2.50%, limiting dividend pay-out and certain other Tier 1 equity instrument repurchase, if the buffer threshold is not exceeded.

Citadele, being identified as "other systemically important institution" (O-SII), as of period end must also comply with the O-SII capital buffer requirement set by the supervisory authority at 1.75%.

Countercyclical capital buffer norms at each balance sheet date are calculated based on the actual risk exposure geographical distribution and the countercyclical buffer rates applicable for each geographical location. Increases in countercyclical capital buffer norms, when announced by the respective country, become effective after prespecified delay. Decreases take effect immediately.

The Pillar 2 Guidance (P2G) is a bank-specific recommendation that indicates the level of capital that the supervisory authority expects banks to maintain in addition to their binding capital requirements. It serves as a buffer for banks to withstand stress. The Pillar 2 Guidance is determined as part of the Supervisory Review and Evaluation Process (SREP) and for Citadele as of period end is set at 1.5%. Unlike the Pillar 2 Requirement, the Pillar 2 Guidance is not legally binding.

The Bank has to comply with the regulatory requirements both at the Bank's standalone level and at the Group's consolidated level. As of the period end both the Bank and the Group have sufficient capital to comply with the capital adequacy requirements. The long-term regulatory capital position of the Group and the Bank is planned and managed in line with these and other expected upcoming regulatory requirements.

For definitions of Alternative Performance Ratios refer to Definitions and Abbreviations section of these financial statements.

Regulatory capital requirements of the Group on 30 September 2024

	Common equity Tier 1 capital ratio	Tier 1 capital ratio	Total capital adequacy ratio
Common equity Tier 1 ratio	4.50%	4.50%	4.50%
Additional Tier 1 ratio	-	1.50%	1.50%
Additional total capital ratio	-	-	2.00%
Pillar 2 additional own funds requirement (individually determined by the supervisory authority in the SREP, P2R)	1.41%	1.88%	2.50%
Capital buffer requirements:			
Capital conservation buffer	2.50%	2.50%	2.50%
O-SII capital buffer (only for the Group)	1.75%	1.75%	1.75%
Systemic risk buffer	0.07%	0.07%	0.07%
Countercyclical capital buffer	0.62%	0.62%	0.62%
Capital requirement	**10.85%**	**12.82%**	**15.44%**
Pillar 2 Guidance (P2G)	1.50%	1.50%	1.50%
Capital requirement with non-legally binding Pillar 2 Guidance	**12.35%**	**14.32%**	**16.94%**

For the Bank as of period end Other systemically important institution buffer requirement is not applicable, Systemic risk buffer applies at 0.10% and institution specific Countercyclical capital buffer requirement is 0.58%. Thus, for the Bank as of period end Common equity Tier 1 capital ratio requirement is 9.09%, Tier 1 capital ratio requirement is 11.06% and Total capital adequacy ratio requirement is 13.68%. On top of the capital ratio requirements a 1.50% Pillar 2 Guidance applies.

The consolidated Group for regulatory purposes is different from the consolidated Group for accounting purposes. As per regulatory requirements AAS CBL Life, a licensed insurer, is not included in the consolidated Group for capital adequacy purposes. Consequently, it is excluded from own funds calculation and individual assets of AAS CBL Life are not included as risk exposures in the Group's capital adequacy calculation. Instead, the carrying value of the Group's investment in AAS CBL Life constitutes a risk exposure in the Group's capital adequacy ratio calculation.

As of period end, no transitional provisions were applied in capital adequacy calculation. Fully loaded capital adequacy ratio equals transitional capital adequacy ratio as of the period end.

Capital adequacy ratio (excluding the net result for the Q3 2024 period)

Per regulations, Bank may include interim or year-end profits in capital before taking a formal decision confirming the final audited profit for the year only with a prior permission of the competent authority. Any foreseeable charges or dividends must be deducted from those profits. Submission of documents for permission takes time and such permission is requested only after the publishing of the financial report for the respective period and completion of the audit verification. Such permission of the competent authority for inclusion of the 2024 interim profits, which have been decreased by foreseeable charges and dividends, has been received for six months period end 30 June 2024. Below is presented a scenario, where no Q3 2024 interim profits are included. 2024 audited annual profits will become eligible for inclusion in the regulatory capital after the institution will take a formal decision confirming the final profit or loss for the year.

	EUR thousands	
	30/09/2024 Group	30/09/2024 Bank
Common equity Tier 1 capital	483,020	424,906
Tier 2 capital	72,596	72,596
Total own funds	**555,616**	**497,502**
Total risk exposure amount	**2,466,903**	**1,746,071**
Common equity Tier 1 capital ratio	**19.6%**	**24.3%**
Total capital adequacy ratio	**22.5%**	**28.5%**

Leverage ratio (including 50% of the net result for the period, i.e. decreased by the expected dividends)

Leverage ratio is calculated as Tier 1 capital versus the total exposure measure. As of period end Citadele is not applying transitional provisions. The minimum requirement is 3%. The exposure measure includes both non-risk based on-balance sheet and off-balance sheet items calculated in accordance with the capital requirements regulation. The leverage ratio and the risk-based capital adequacy ratio requirements are complementary, with the leverage ratio defining the minimum capital to total exposure requirement and the risk-based capital adequacy ratios limiting bank risk-taking.

	30/09/2024 Group	31/12/2023 Group	30/09/2024 Bank	31/12/2023 Bank
Leverage Ratio – fully phased-in definition of Tier 1 capital	9.8%	9.2%	8.8%	8.4%

The fully loaded leverage ratio as of period end, if no Q3 2024 interim profits are included, for the Group is 9.5% and for the Bank is 8.7%.

Minimum requirement for own funds and eligible liabilities (MREL) under BRRD

The European Commission has adopted the regulatory technical standards (RTS) on the criteria for determining the minimum requirement for own funds and eligible liabilities (MREL) under the Banking Package (CRR2/CRD5/BRRD2/SRMR2). In order to ensure the effectiveness of bail-in and other resolution tools introduced by BRRD 2, all institutions must meet an individual MREL requirement. The MREL requirement for each institution is comprised of several elements, including calculation of the required loss absorbing capacity of the institution, and the level of recapitalisation needed to implement the preferred resolution strategy identified during the resolution planning process. Items eligible for inclusion in MREL include institution's own funds (within the meaning of the capital requirements directive), along with eligible liabilities subject to conditions set in regulation 2019/876.

MREL is required to be calculated based on both total risk exposure amount (TREA) and leverage ratio exposure (LRE) amount. Statutory subordination requirements may also be set depending on the Group's regulatory classification and are communicated individually in a MREL decision.

SRB as of the period end has determined the consolidated MREL target for the Group at the level of 24.13% of TREA, plus a combined buffer requirement, or 5.91% leverage ratio, whichever is higher. The Group must comply with MREL at all times on the basis of evolving amounts of TREA/LRE. As of the period end, the Group is in compliance with TREA and LRE based MREL requirements. As of the period end Group's MREL (excluding Q3 2024 interim profits) is 30.9% based on TREA criteria and 15.1% based on leverage ratio criteria.

Starting from 16 July 2027, a proportion of the overall MREL requirement would have to be met by the Group with subordinated instruments, namely 14.04% of TREA, plus a combined buffer requirement, as well as a higher 7.82% leverage ratio. The Group is currently in the process of appealing the subordination requirement. The MREL target is determined by the SRB using financial and supervisory information and is re-calibrated by the SRB annually.

Managing Climate-related and environmental risk

Citadele recognizes that its operations and business model can be affected by climate-related and environmental (C&E) risks, both physical and transition risks, in several ways: as a direct risks to Citadele, and as risks to Citadele through its clients, partners and suppliers affected by C&E risks. Citadele is focused on integrating C&E risks into the broader risk management framework of the Bank. The Group views C&E risks as risk drivers affecting existing prudential risk categories such as Credit risk, Operational risk, Market risk, Liquidity risk and Strategic risk. Citadele's C&E risk management follows a general four step approach of risk identification, assessment, management and monitoring, that is embedded in the Bank's key processes. Work on integrating C&E risks in Citadele risk management framework is continuous and it is regularly reviewed and updated to align with scientific consensus and regulatory expectations. Within C&E risk management, integrating ECB expectations for safe and prudent management of C&E risks into the Bank's processes has continued to be the key focus. Some of the key steps being:

- Identification: identification of elevated transition risks at sector level, identification of physical risk at address level of collateralized real estate, identification of elevated C&E risks at exposure level for large exposures.
- Assessment: environmental and social risk assessment for new exposures exceeding EUR 1.0 million, quantification of physical and transition risk exposure on portfolio level.
- Managing risk: acceptable risk level thresholds in risk appetite, mitigating actions.
- Monitoring: risk appetite threshold monitoring, monitoring of environmental and social risk events.

C&E risk identification

Climate and environmental risks are identified both at portfolio level for transition and physical risks, and on exposure level for large new exposures. Climate risk drivers, representing climate-related changes that could materialize as financial risks through existing risk categories, are classified into one of two categories – physical and transition risks. Physical risks are further classified as acute or chronic, following general practice in the area. Because C&E risk as driver is manifesting through other risk categories, it is important to identify and understand the transmission channels through which these drivers are influencing overall risk. Potential effects of climate risk drivers have been identified for all key risk types of the Bank.

Materiality assessment

To understand Citadele Group's exposure and potential vulnerability to physical and transition risks, an annual Climate and Environmental Risk Materiality Assessment is performed. Focus of the latest materiality assessment was to incorporate ECB recommendations. The new approach ensures detailed analysis of transition and physical risk drivers, granular industry level analysis, assessment in the short (0-3 years), medium (3-5 years) and long-term (>5 years) horizon. It covers all major risk areas, such as Credit risk, Liquidity risk, Market risk, Operational risk and Strategic risk. Citadele continued working on reinforcing the Materiality assessment and integration.

The identified material C&E risk drivers are included into Risk Appetite and Risk Strategy within the individual risk areas in accordance with the Group's ESG Risk Policy. This process also includes appropriate risk limit setting, the development of Key Risk indicators, and regular monitoring and reporting. Further monitoring is performed for sectors with increased climate-related and environmental risk.

To facilitate identification of material climate-related risks within sectors and portfolios, work is ongoing to increase the granularity of assessment. Quantification of exposure to Climate & Environmental risks is part of stress testing procedures, with scenarios developed for Credit Risk (both Physical and Transition risk scenarios), Market risk (combined Physical and Transition risk scenario), Operational risk (Physical and Transition risk scenarios) and Strategic risk (Transition risk scenarios).

To assess linkage between financial and nonfinancial risks, transmission channel approach is used. Transmission channels are the causal chains that explain how climate risk drivers may impact Citadele either directly or indirectly through counterparties, assets, and the economy.

C&E risks may manifest as both financial and nonfinancial risks. Financial risks are the probability to experience financial losses due to Climate-related & environmental events. Nonfinancial risks are viewed as probability that certain climate related and environmental events will leave negative impact on the Bank's reputation. Nonfinancial risks lead to financial consequences.

Managing climate-related risks

Managing ESG-related risk is key to Citadele's long-term sustainability. Citadele defines ESG risk as the risk of negative financial impact that stems from the current or prospective impacts of ESG factors on its counterparties or assets. In the process of integrating climate-related risk aspects into the existing risk management framework, Citadele has defined acceptable C&E risk levels and portfolio concentration for high-risk industries in its Risk Appetite Framework. All C&E risks identified as material are considered in Risk Appetite and Risk Strategy within the individual risk areas in accordance with the Group's ESG Risk Policy. This process also includes appropriate risk limit setting, the development of Key Risk indicators, and regular monitoring and reporting. Follow-up actions in case of limit breaches are included in Risk Strategy.

The risk management framework for categories where the impact of climate-related risk factors is identified as material is reinforced to include the climate related risk factor identification and management. A process for Environmental, Social and Climate-related risk assessment on individual large exposure level has been introduced into the credit assessment process. Its outcomes serve as basis to including the estimation of C&E and social risk aspects into credit decisions.

As part of C&E risk mitigation while structuring transactions with higher C&E risk levels and financing thresholds, Citadele is considering the existence and maturity its counterpart's C&E risk management action plan. It may affect the length, pricing, or other structuring conditions. Citadele realizes that C&E risk management and ESG area in general may be new to many of customers and are determined to support customers in navigating the requirements.

To embed C&E risk into Market risk management, an internal approach, linked to Industry Environmental risk level and based on GHG emissions is used for risk assessment and monitoring purposes. Citadele uses Environmental Risk score and external ESG rating cores for ESG risk management in corporate debt securities portfolio.

Citadele manages C&E risk drivers through Operational risk management by considering the potential adverse impact of events related to climate, environmental and social risk events on its Business Continuity Plan and potential reputational and litigation risk. Social media, as an essential communication channel for ESG topics, is monitored by the Marketing and Communication Department, and information obtained from this monitoring is considered during the Reputational risk management process.

C&E risk factors are included in the Bank's standardised stress tests and ad-hoc stress test scenarios.

Managing social and governance risks

Managing social and governance risks in addition to C&E risks is important for Citadele, to protect the Group's reputation, avoid legal and regulatory risks, achieve long-term strategic objectives, and contribute positively to society and the environment.

NOTE 28. EVENTS AFTER THE REPORTING DATE

AS Citadele banka issues EUR 35 million Senior Preferred Bonds

On 14 October 2024 AS Citadele Banka completed an oversubscribed issuance of EUR 35 million of Senior Unsecured Preferred Bonds under the €100,000,000 First Senior Unsecured Preferred Fixed/Floating Rate Bonds Program. With the total demand for bonds exceeding EUR 46 million, the minimum offered amount of EUR 10 million was oversubscribed, enabling Citadele to increase the issue volume to the predetermined maximum size of EUR 35 million.

Bonds were issued with 2 years maturity and a fixed interest rate of 5% per annum, resetting on 14 October 2025 to the floating interest rate of EURIBOR 3 months plus 2.3% per annum.

Net proceeds from the offer are to be used by Citadele for general corporate purposes, including compliance with the Minimum Requirement for Own Funds and Eligible Liabilities ("MREL") applicable to Citadele.

Independent Auditors' Report on Review of the Condensed Interim Separate and the Condensed Consolidated Financial Information

To the shareholders of AS "Citadele banka"

Report on Review of the Condensed Interim Separate and the Condensed Consolidated Financial Information

Introduction

We have reviewed the condensed interim separate financial information of AS "Citadele banka" ("the Bank") and the condensed interim consolidated financial information of the Bank and its subsidiaries ("the Group") set out on pages 13 to 64 of the accompanying Interim Report, which comprise:

- the separate and consolidated condensed balance sheets as at 30 September 2024,
- the separate and consolidated condensed statements of income for the three and nine months periods ended 30 September 2024,
- the separate and consolidated condensed statements of comprehensive income for the three and nine months periods ended 30 September 2024,
- the separate and consolidated condensed statements of changes in equity for the nine months period ended 30 September 2024,
- the separate and consolidated condensed statements of cash flows for the nine months period ended 30 September 2024, and
- the notes to the separate and consolidated condensed financial information.

The Management of AS "Citadele banka" is responsible for the preparation and presentation of this condensed separate and consolidated interim financial information in accordance with IAS 34 Interim Financial Reporting as adopted by the European Union. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements ISRE 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing practices and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim separate financial information of AS "Citadele banka" and the condensed interim consolidated financial information of the Group is not prepared, in all material respects, in accordance with IAS 34 Interim Financial Reporting as adopted by the European Union.

OTHER REGULATORY DISCLOSURES

Besides financial, corporate governance and other disclosures included in these financial statements of AS Citadele banka, the Financial and Capital Market Commission's regulation No. 231 "Regulation on Preparation of Public Quarterly Reports of Credit institutions" (cancelled after the period end) requires several additional disclosures which are presented in this note. Bank tax expense is presented within "Corporate income tax", Bank tax liability is presented within "Tax liabilities". Group's depreciation charges for assets under operating lease contracts are presented within other operating expense as use of assets is core business of the Group. These expenses are part of operating income.

ROE and ROA ratios

	9m 2024 Group	9m 2023 Group	9m 2024 Bank	9m 2023 Bank
Return on equity (ROE) (%)	17.83%	27.54%	15.61%	27.02%
Return on assets (ROA) (%)	1.91%	2.48%	1.52%	2.26%

Average value is calculated as the arithmetic mean of the balance sheet assets or residual capital and reserves at the beginning of the reporting period and at the end of the reporting period.

Capital adequacy ratio

Capital adequacy ratios here are calculated in accordance with the Basel III regulation as implemented via EU regulation 575/2013, directive 2013/36/EU and other relevant regulations. In this disclosure, in the Group's and the Bank's regulatory capital, annual audited and interim auditor's reviewed 6m 2024 profits before reporting period are included; 2024 audited profits will become eligible for inclusion in the regulatory capital after the institution will take a formal decision confirming the final profit or loss for the year; interim audited and interim reviewed profits for the reporting period are included only after regulatory approval is obtained and in the amount approved (i.e. in this disclosure no Q3 2024 interim profits are included).

DEFINITIONS AND ABBREVIATIONS

This section summarises abbreviations and Alternative Performance Ratios (APR) used throughout these interim condensed financial statements. APRs may not be comparable across companies. Profit-related APR may exclude specific line items, like mortgage loan levy and bank tax, which doesn't meet corporate income tax definition as per IFRS or may exclude discontinued operations.

ALCO – Assets and Liabilities Management Committee.

AML – anti-money laundering.

BRRD – the bank recovery and resolution directive.

CAR – Total capital adequacy ratio as defined in the Regulation (EC) No 575/2013 and other relevant regulations. The ratio is calculated as a sum of equity, which is adjusted by specific regulatory deductions, and eligible subordinated liabilities, divided by risk weighted assets and other regulatory charges. The ratio indicates compliance with regulatory capital requirements at the end of the relevant period.

CET1 – Common Equity Tier 1 capital ratio as defined in the Regulation (EC) No 575/2013 and other relevant regulations. CET1 ratio is calculated as equity, which is adjusted by specific regulatory deductions, divided by risk weighted assets and other regulatory charges. The ratio indicates compliance with regulatory common equity tier one capital requirements at the end of the relevant period.

CIR – cost to income ratio. Calculated as "Operating expense" divided by "Operating income". Operating expenses are calculated as the sum of staff costs, other operating expenses and depreciation and amortisation charge for the relevant period. Operating income is calculated as the sum of net interest income, net fee and commission income, net financial and other income for the relevant period. CIR is used to determine the profitability and administrative efficiency of a bank during the period.

COR – cost of risk ratio. "Net credit losses" divided by the average of gross loans at the beginning and the end of the period. COR is a measure of estimated exposure to credit risk of the lending operations in the respective period.

CTF – combating terrorist financing.

ECB - European Central Bank.

EU – the European Union.

FMCRC – Financial Market and Counterparty Risk Committee.

IAS – International accounting standards.

ICAAP – internal capital adequacy assessment process.

IFRS – international financial reporting standards.

LCR – liquidity coverage ratio as defined in the Regulation (EC) No 575/2013 and other relevant regulations. LCR indicates regulatory compliance with this specific liquidity requirement measure at the end of the relevant period.

Loan-to-deposit ratio. Carrying value of "Loans to public" divided by "Deposits and borrowings from customers" at the end of the relevant period. This ratio shows utilisation of the attracted customer funds in lending to public.

LR – leverage ratio is calculated as Tier 1 capital versus the total exposure measure. LR indicates regulatory compliance with specific minimum leverage requirements set by the regulatory authority.

LRE – leverage ratio exposure. The exposure measure used in LR, calculated as per regulatory rules.

ML/TF/PF – money laundering, terrorism and proliferation financing.

MREL – minimum requirement for own funds and eligible liabilities.

NPL – non-performing loans. Stage 3 loans to public divided by total gross loans to public as of the end of the relevant period. NPL shows the proportion of credit impaired loans in the portfolio, a measure of the riskiness of the loans to customers portfolio.

NSFR – net stable funding ratio as defined in the Regulation (EC) No 575/2013 and other relevant regulations. A ratio indicating availability of the funding to cover liquidity needs, calculated as per regulatory rules.

OFAC – Office of Foreign Assets Control of the US Department of the Treasury.

O-SII – other systemically important institution.

ROA – return on average assets. Annualised net profit for the relevant period divided by the average of opening and closing total assets. ROA is a measure of profitability for the period generated by assets of the bank; indicating how efficiently assets are utilised in profit generation.

ROE – return on average equity. Annualised net profit for the relevant period divided by the average of opening and closing total equity. ROE is a measure of profitability for the period generated by equity of the bank; indicating how efficiently equity is utilised in profit generation.

RTS – regulatory technical standards.

SRB – the Single Resolution Board.

SREP – supervisory review and evaluation process.

Stage 3 impairment ratio – impairment allowance for stage 3 exposures divided by gross loans to public classified as stage 3. Indicates coverage of impairment allowance to cover credit impaired exposures as of period end. Measure of riskiness of the portfolio of loans to customers.

Stage 3 loans to public ratio – stage 3 loans to public divided by total loans to public as of the end of the relevant period. This ratio indicates the proportion of credit impaired loans in the total portfolio of loans to customers. Measure of riskiness of the portfolio of loans to customers.

TLTRO – ECB's targeted longer-term refinancing operations.

TREA – total risk exposure amount.

TSCR – SREP capital requirement set by the regulator.
